Subject: Tower Draft Summary Tables

FYI – they are not complete (PID data missing), but draft form should allow you to interpret site conditions. Base map is missing BH-24 location, which is just north of BH-23 nest. BH-24 is in driveway apron, immediately north of buried fiber line. FYI - I am doing this remotely and do not have access to physical project file. I will try to update and finalize tables and figures before Thursday. Hope this helps...
